# COLLECTION MARITIM XL

## Product structure and technical data

The Collection Maritim XL contains rustic oak floorboards. With a four-sided bevel, each plank is individually accentuated and this gives the entire floor area a very special appearance. The surfaces are also oiled oxidatively. Thanks to the special structure, the beauty and expressiveness of the wood is emphasized by our **Loopy-Face® Technology**.

Wood grains thus unfold even more effect and intensify through **Loopy-Face® Technology** the naturally pleasant feel of plank.

This appealing and trend-conscious look of the flooring can also be elegantly integrated into modern home design. The patented drop-down-click connection ensures quick and easy installation.

**LOOPY-FACE®**  
TECHNOLOGY

The **Loopy-Face®** technology stands for highest standards in surface processing. It is the perfect finishing to fulfil the wish for a natural raw timber effect. The oxidative oiled surface is extremely matte and conserves the natural optics without any intensification. The flooring has an end finishing and can be used directly after the installation.
